

OBJECTIVE

Aspiring Flutter Developer with hands-on experience in building responsive mobile applications using Flutter and Dart. Skilled in Firebase integration, REST API consumption, and state management. Looking to contribute technical skills and creativity to a dynamic development team while gaining real-world experience and enhancing mobile app development expertise.

EXPERIENCE

- **Velga Creative Powerhouse**

Flutter Developer Intern

Working as a Flutter Developer Intern, contributing to the development of mobile applications.

Designed and implemented responsive UI using Flutter widgets.

Integrated Firebase services including Authentication and Cloud Firestore.

Assisted in API integration and state management.

Collaborated with the development team to debug and enhance app performance.
- june 2024 - Present

EDUCATION

- **SURYA ENGINEERING COLLEGE, ERODE**

B.E. Computer Science and Engineering (Cyber Security)

Currently Pursuing
- Expected Graduation: 2027

SKILLS

- Flutter
- Firebase
- WordPress

PROJECTS

- **PKT Call Taxi (User App)**

Developed the User mobile application using Flutter for booking taxi rides seamlessly.

Implemented real-time ride tracking, ride history, and secure payment integration.

Integrated Firebase Authentication and Cloud Firestore for user data management.

Designed responsive UI to enhance user experience across different devices.

Implemented push notifications for ride status updates using Firebase Cloud Messaging.
- **PKT Call Taxi (Driver App)**

Developed the Driver mobile application using Flutter to manage rides and bookings efficiently.

Implemented ride request notifications, real-time location tracking, and availability status.

Integrated Google Maps API for navigation and route optimization.

Ensured smooth synchronization of ride data between User and Driver apps using Firebase.

Designed intuitive UI for quick ride acceptance and status updates.
- **PKT Call Taxi (Admin Panel)**

Developed an Admin Panel to manage users, drivers, and rides efficiently.

Implemented CRUD operations for managing profiles, ride requests, and payments.

Generated reports and analytics for rides, revenue, and user engagement.

Ensured secure access and data handling using Firebase backend services.

Provided real-time monitoring of ride status and system performance.
